#### **COURSE OBJECTIVES:**

Occupational Medicine is a rapidly changing specialty. This program is designed to update physicians and nurses in the latest advances in many areas of occupational medicine. It will present an update on future trends in occupational medicine, stress at the workplace, infectious diseases such as AIDS, hepatitis and tuberculosis, among other topics.

The material will be oriented toward occupational and primary care physicians and nurses who need to know the latest information on these topics.

#### **ACKNOWLEDGEMENTS**

The Central States Occupational Medical Association gratefully acknowledges the contributions and support of:

KMI Medical, Inc.

The First National Bank of Chicago
